### **Subject - Appreciation Letter**

Dear Sir,

I am writing to express my deep appreciation for the exceptional work being carried out by Shahaji Law College, Kolhapur in implementing National Legal Services Authority (NALSA) schemes and conducting legal education and awareness camps. As the Secretary, District Legal Services Authority, Kolhapur, I am genuinely impressed by the college's dedication and commitment to promoting legal literacy and access to justice.

The efforts of your college in organizing legal education programs and awareness camps have not only enhanced students' understanding of legal rights and duties but have also benefited the broader community. Through active participation in NALSA schemes, the college has played a pivotal role in bridging the gap between the legal system and marginalized sections of society, thereby empowering them to seek justice.

I firmly believe that such initiatives are crucial for fostering a more informed and responsible society. Your college's steadfast commitment to promoting legal awareness and providing legal aid underscores its dedication to social justice and the rule of law.

Ques. What is Moot Court? Explain the origin of Moot Court. Explain the difference between Moot-Court and Mock Trial.

I) Introduction to Moot Court -

Moot Court is a Co-curricular activity at many law schools. Participants take part in stimulated court usually involving draft memorials participating in oral arguments etc. Generally the phrase moot court also termed simply as moot or mooting & participants are called mooters or less conventionally mooties.

Moot Court does not involve actual testimony by witnesses, cross examination or the presentation of evidence but is based solely on the application of evidence the law to a common set of evidentiary assumption facts & clarification to which the competitors are introduced.

II) Process of Moot-Court -

Law instructors present hypothetical cases & students argue them before professor or other lawyer, who serve as judges. Hypothetical cases often address matters of current political & constitutional import.

These activity is competitive by nature & students vie for honors within their school & in regional &

national moot-court competitions. featuring teams of students from general law schools. Students then draft appellate briefs, which are formal legal papers complaining a recital of facts of the case with analysis & argument of the legal issue raised.

once the briefs are written, students prepare for second phase of moot court advocacy: oral argument demands preparation, organization & the ability to think quickly & respond convincingly when questioned. The student appears before a panel of judges or other student & present her or his position on the legal issue. Each student has a time limit, normally five or ten minutes to convince the panel.

### III) Importance of Moot Court :

The moot court is now become the part & parcel of the law syllabus in every university. It is included as a practical syllabus, training paper. The purpose behind making it is a compulsory subject is to make acquainted with various procedural aspects by the collage students. It gives an opportunity to the students to prepare their own argument & present it before an expert called judge.

Moot court provides an opportunity for the student to know the law, to know drafting skill, how to present the case before the judge, the manners & etiquette & also gives the self confidence.

## INTERNSHIP ACTIVITY

### VISIT TO LABOUR COURT, KOLHAPUR.

Place: Labour Court, Kolhapur.

Shahaji Law College, Kolhapur organized a court visit on 8<sup>th</sup> March, 2023 to the Labour and Industrial Court, Kolhapur. The visit was organized with the prior permission of court Administration and with the guidance of Prof. Atul Jadhav sir who was very supportive to all students. We were sure that this visit would be helpful for us in our future practical life.

In the Industrial and Labour Court, we observed the first case which was about 'Gratuity Act 1972'. The case was about the employee where he was working in the organization for past 23 years; but the organization refused to calculate all the 23 years lump sum gratuity amount. He has taken personal loan through organization. His wages were payed to him through cash only and not by cheque or DD. Presenting the document before the Honorable

judge, the judge asked the employee and his lawyer for submitting termination date and bank statement. The lawyer was not having the documents. So it was held by court that, there was no employer and employees relationship between them. Therefore, the organization was not liable to pay gratuity amount to the labour.

The second case was about Airlines. The parties to the dispute and their Advocates were present on hearing day. The court gave next hearing date for submission of evidence. Then we observed the court administration and the premises of Industrial and Labour court. After that we interacted with Hon'ble Judges of Labour Court. Hon'ble Kalyani Aadke ma'am who is member of Industrial Court No. 2 gave us information regarding the procedure of Industrial and Labour court cases and its steps in detail.

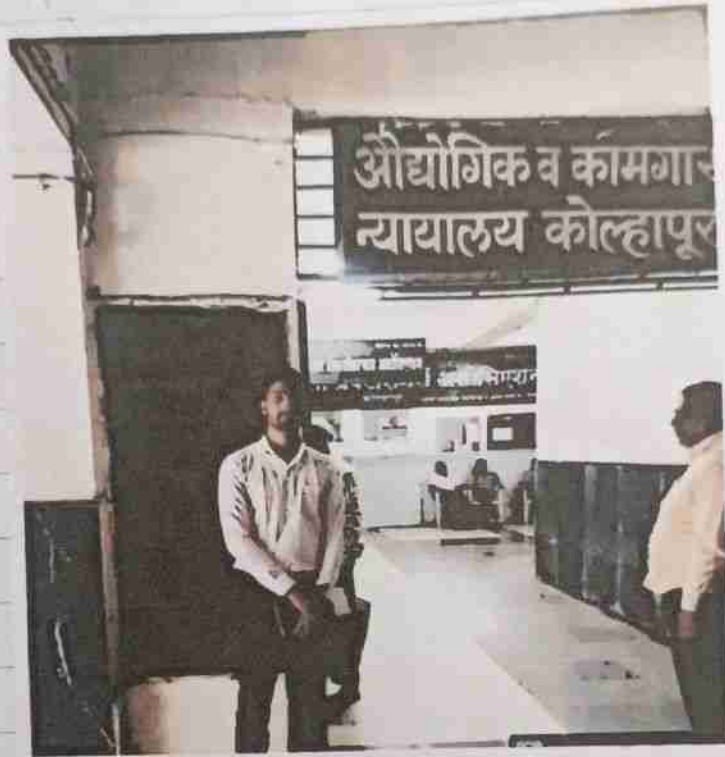

So it was knowledgeable visit for us and we are always thankful to our teachers.

According to him, driving a motor is not more important, controlling a motor is important and essential that is a reason why a driver is always blamed and not the car.

Also there is rise in speed violat  
by the people. Average cases of speed

## Title - Road Safety Public Awareness Campaign

Date - 17, January 2023

On 17/01/2023, A seminar on Road Safety for public awareness was held in Shabaji Law College, Kolhapur, as an internship activity. Honourable Mr. Jadhav Sir, delivered a guest lecture upon a subject and gave guidelines for public safety.

According to his formal experience, he remarked that there are average of accidental deaths in India which are upto 1-1.5 Lakhs in year. Kolhapur has 400 people per year, dying of Accidents. Daily average 2 people die of motor accident. There is a need of awareness on this subject. Average accidental injuries are 5x average deaths. Causes of this are Boards on roads which are for guidelines are not followed but ignored, Modifications in bike and cars, change the functioning and lead to accidental hazards. He says that companies design the cars specifically for purpose of objected functioning but unnecessary modifications affect the working of motors.

According to him, driving a motor is more important and controlling a motor vehicle is twice important the driving. That's a reason why a driver of a car is always blamed but not the car.

Also there is rise in speed violations by the people. Average cases of speed violation in a day is 100 in number.

Being a student of law, it is necessary to follow the rules which are absolutely made for welfare of general public. We are responsible for our act of negligence towards citizens as well as law makers.

He also guided about importance of license to drive the motor car and motor cycle. He directed that drive with license and within rules.

Directions for licensing were also given as stating the provisions for learning license and fixed license. Learning license is given upon passing an online test of Multiple Choice Questions regarding driving guideline. On passing this exam, receipt of online license is given. After a period of 30 days appointment for trial of fixed license is initiated to be given. Within these 30 days a person is allowed to take information of motors and road guidelines and rules. Basic guidelines like walking through right side of the roads. Waiting for the traffic signals and proceeding towards left during a signal is lightened. Stopping a car on zebra crossing during a signal,

- i] Wearing Ear Pods while driving
- ii] Stopping a motor on zebra crossing during signal
- iii] Not using helmets during driving.

iv] Not keeping a chin belt held of Helmet  
v] Negligence towards defensive driving.  
are all causes of motor accidents in today's generation  
even though an indication of accident is seen it should  
be guessed and driven carefully in order to prevent an  
accident before few seconds.

Youth of India needs to be aware of these guide-  
lines very soon. Overall it was an informative session  
and guidelines by Hon. Mr Jadhav Sir enlightened the  
minds by their convincing words.

On 14 February, I and my classmates we, 10 students visited the Family Court and Office of Management of the Court, as an intership activity organised by Shahaji Law College Kolhapur.

Though we had very less idea of the working of court and procedures undertaken while hearing of cases and overall activity of family court, it was a first step

towards exploring the legal knowledge and that is the reason behind making a visit to court.

Mr S. B. Methe (Managing Officer) provided us

information about the working and procedural scenario of the Court.

We observed the court proceedings by sitting in a disciplined manner and ~~a~~ curiously attending the actions of Hon'ble Justice, Court Clerk, Parties to petition and Witnesses.

Cases under Hindu Marriage Act 1956 for restitution of conjugal rights. Petition for Custody of a child was also observed. Declaration of Marriage to be cancelled was observed. Number of procedural actions which would sound critically or seem critical to a person having no knowledge of laws were observed. However being a budding law student we made an observation that number of cases for divorce were more as compared to that of restitution of conjugal rights. This could also be a major change in today's society.

After that, Adv. Parana explained us about Copyright, "Copyright is the exclusive right to protect original work of an author that is literary and artistic works which includes writing, music, poem, short stories, fine arts such as paintings and sculptures, and technology-based such as computers and electronic Database.

After that, She explained us about Patent, "Patent protect new inventions and discoveries. A patent is property right granted by a Sovereign Authority to an inventor for the process, design, or invention for a designated period in exchange for a comprehensive disclosure of a invention and they are a form of intellectual right. Most patents are valid for 20 years in the U.S. from the date the application was filed with the USPTO. patents are of three types
